consists of three courses with one to live, it will never be adopted as a guess. The patron is allowed to look substitute for food. at a long, serpentine bill of fare which seems to present untold possibilities for 50 cents, but after reading it all the way through and deciding to order everything in sight he stumbles onto a few lines of brusque fine print which eliminates everything but the roast beef and iced tea. This ex-

plains why so many patrons rise up from a table d'hote dinner wearing a wan and crestfallen look. The table d'hote dinner was in vented for the benefit of people who are never hungry when it is their turn

A Long Bill of Fare Which Seems to Present Untold Possibilities for 50

restaurants because it has been demonstrated that almost everybody chooses the wrong meat or vegetables and is stricken with a total paralysis of the appetite. It is estimated that the American hotel makes more money off the table d'hote victim than it does off the six by nine sample room The main idea back of the table d'hote dinner, however, is to drive the patrons into the open jaws of the a la carte service. This is a merciless system by which two strips of bacon and a plate of buttered toast are made to cost more than a week's board at the home of an esteemed relative. It requires more fortitude to sit down and look into the threatening coun-

Shoe and Foot Troubles

THE commonest form of foot trou-

ble is that which the laity speak s "flat-foot," or "fallen arches," a tion which is, in fact, nearly alcaused by bad posture, by musveakened through lack of proper erse, and especially by the use of of poor type which limit muscle especially action of the toes, ives a faulty weight distribution

When the barefoot savage walks, his oot "toes in," and the toes grasp the ground at each step. In consequence of this, the leg muscles, whose tendons run back of the inner ankle bone and are hitched to the sole and the toes, are strong and elastic from use and hold up the arch of the foot.
